

HANDS AT WORK
ACROSS AFRICA
 2021 | WHERE WE WORK

We envision the **local Church in Africa** effectively caring for the orphaned, the widowed and the dying, and **unified in this mission with the Church outside Africa.**

Hands at Work is striving to reach the most vulnerable children across Africa, who are living in broken and dysfunctional communities and who would not have been reached otherwise. Without access to food, education and basic healthcare, children like 11-year-old Mercy* are left extremely vulnerable. Mercy lives with her two brothers and great-aunt, Anita* in Ilaje Community, Nigeria. Through the commitment of volunteer Care Workers from the local church, Mercy is holistically cared for. Mercy represents thousands of children across Africa who are being cared for and supported with the goal that they would grow up to become healthy adults.
